RUFUS KING & WM. H. WATSON, PROPRIETORS,

MILWAUKEE Thursday Morning, March 19. For Chief Justice of the Supreme Count, EDWARD V. WHITON.

ELECTION, TUESDAY APRIL 7 The Supreme Court Decision Justice McLEAN, in his opinion spon the ious subjects discussed by the Supreme Court, in the Dred Scott case, uson the following em-

"In this case, a majority of the court have said that a slave may be taken by his master into a territory of the United States, the same as a horse or any other kind of property. It is side this was said by the court, as also many other things, which are of no authority. Nothing that has been said by them, which has not a direct bearing to the jurisdiction of the court, against which they decided, can be considered as authority. I shall certainly not regard it us such. The question of the jurisdiction, being before the court, was decided by them authoritatively, but nothing beyond that question."

So the decision of the U. S. Supreme Court, a which is so much rejoiced over by the Slavery is "In this case, a majority of the court have said

Mr. CAMERON replies, in the News of Jester day, to the "proper demand" of the "many democratic citizens," who put valious questions to him about his political standing and pretensions to the County Judgeship. None of these quer-les, however, does Mr. Cannon condescend to answer; but he enubs the News for endorsing a communication which was only entitled to "si lent contempt," and invites his anonymous assailants to unmask and show their hands before unfacile News, which endorsed the call of his many pathy for the man whom they had formerly purdemoratic citizens" as a "poper demoratic citizens" as a "proper demand," and such a many pathy for the man whom they had formerly purdemoratic citizens" as a "poper demand," and such a many pathy for the man whom they had formerly purdemoratic citizens as a "poper demand," and such a many pathy for the many pathy for dertaking to call bim to account. It is rumored that Judge MILLER has gone to Washington on a similar errand. Should these aspirants succeed in their hopes, they will add fresh laurels to those herethere won for Wisconsin, in the field of diplomacy, by our illustrious representative at Quito, the Hop. A TEMPERANCE MOVEMENT. - The Independent Order of Good Templars, an organization which seems to be taking the place of the Sone of Temperance, in laboring for and encouraging its members in the exercise of temperance, is becoming quite popular in this state as well as elsowhere. We learn that there are already 41 lodges organized in Wisconsin. Mr. Vixton, widely known as an eloquent and efficient laborer in the cause, under the name of the "Mohawk Dutchman," is the head of the order in this State, and is engaged in putting new Lodges into operation. An effort will be made to organize one or more in this city. We have enough slaves in Missouri to deter hundreds of thousands of free, laborers from coming here. But we have not enough to do one-tenth of the service labor of the State. So Missouri languishes. She is neither free nor slave. She would be better off either with a half million more slaves, or with none at all. And, as the slaves cannot be had, and the State must take a more positive character than she has heretofore held, slavery is of its own accord yielding, and will rapidly disappear from the State. The fertile fields, the vast forests and rich mines of Missouri must be worked, and will be. It is manifest destiny. the latter place :

The excitement at the station house, and around the immediate phace of disaster, was intense. The baggage building, where the bodies were deposited, was surrounded with an expectant crowd, many of whom presented a most melancholy appearance. Hundreds of unxious hearts found relief in loud sobs. Every crack was occupied with persons peering in among the stiffened corpses, to see whether the familiar face of some dear friend or relative was not recognizable among the horribly mutilated dead, which lay in two rows on the floor.

In connection with the above, we have a republished list of the killed and wounded. The total number of the torner, whose bodies have been recovered, now accounts to sixty-six.— On filing a cominen pipe-bowl with the peat, with a cavering of clay to prevent the gas from escaping, and placing the bowl in the live coals of a wood tire, the gas generated, streaming out from the stem of the pipe, would burn with a bright, constant flame, for the space of two minutes or more; and the substance left in the pipe-bowl after the gas had been consumed, rescubled coke, and was equally as valuable for fuel as before; Then it is full as durable as coal too.

Messrs. Cravath and Williams estimate that Messrs. Cravata and virtuams centured that this peat can be supplied in the Whitewater market, a distance of three miles from the place of deposite, at the rate of about \$2,50 per cord. They estimate the amount of peat on the two hundred acres, to be about 500,000 cords, of the value at twenty-five cents per cord for fuel, of \$125,000; besides the value estimated of supplied to the peace of the cord plying about \$150,000 worth of lighting gas;

The pressure for office exceeds all former experience; not excepting the right in 1840, when popular sentiment demanded change throughout all the departments of Government. Since Monday, the Uabinet have met daily at 9 o'clock, rarely adjourning before 3, and beyond the urgent public affiries, this time has been engressed atmost entirely in matters concerning the dispensation of patronage. California and Persylvinia have the largest numerical force of applicants on tion of patrousge. California and Pensylvania have the largest numerical force of applicants on the ground. The country politicians of the latter State swarm like locusts, and every man of them has protestions to the first rank of consideration. Proor Mr. Buchanan is pestered and badgered to death—they give him no respite; being a bachelor, even his bedingon is no sauctuary in the White House, Morning, noon and nigh; they watch him, seize him and to ture him. This treatment is manifestly impairing his natural amiability and gentleness. At times he is crusty and complaining; these mental perplexities have Trade of the Western Transportation

defauts of \$5 fine for drunkenness. Gerald Fitzelbbon, charged with around and battery; case continued for trial to March 20th at 9 A. M. James Conglineras brought up by the Ohlef of Police charged with disorderly conduct, and refusing to obey the bolicer at the Lake shore Depot. The defandant plant not gailiy. Mr. Beck stated that he had just returned from Chlon

[0] and saw the defendant and spother man engaged in pulling and hauling an old man, a passenger. He went, up and told them to desist; the other man did so; the defendant retused to stop, when the officer took hold of him, telling him, when asked, that he was an officer; de-fendant still resisted, when he took him into custody. The defendant claimed that he supposed the Chief was the officer not pressing the charge, the City Attorney soggested that he be fined the lowest amount \$1 00which was inflicted and paid. The defendant stated that he note knew the difference between the Chief of Police

There is one section of the "Rules and Ragulation of the Police," which ought, at all times, to be compiled \*\* The Chief of Police, and Policemen when on duty

shall wear the innights of their office on the outside of the outermost garment, over the left breast, consploucus T displaying the same, so that the entire surface ther If displaying the same, to that the entire surface increas may be seen, (except when equition may dictate that the same shall not be exposed.)"

The above language is imperative, and is as computery spon policemen as anyother section. We do not quote it as relating to the above case. In that case, the Chief

told the man he was an officer, and the defendant refu to obey at his peril, and was justly punished for so doing The Rondeau Ship Canal

As a meeting of our Board of Trade is to be held at noon to day to consider the project of building a ship ca-nal from Lake St. Clair to Rondean, on Lake Erie, a few words on the subject will not be out of place. The propseition is to procure a Charter from the Canadian Partiament now in session, for a ship canal extending fro near the heat of Luke St. Chair to Rondcau on Lake Eric.
The actual distance between the two points is 87 miles,
but by using the channel of the Chenliceau to River for 9 miles, there will be only 28 miles of canal to build. It is proposed to make the canal 12 feet deep and of am ridih, with but two locks in its entire length and a fall of only four feet. The distance saved would be 127 miles, and as vessels, could pass through the canal, by towing, in 12 hours, the time saved would be from one to three dess, setting aside the delays and detentions on the St. Chair Flats, which the new route would avoid. The toll proposed, of half-a-cent on a bushel of wheat, or ten sents per ton on coal and iron and the expense of towing. say \$65 per trip, would make an aggregate, for savet trips, for a vessel carrying 15,000 bushels, of \$1435. The cost of towing, detentions &c., by the prirent route, over the Flats, will average as much as this, while it is believed that the zhip canal would enable vessels and propellers

to make an additional trip every season. The Chicago Board of Trade, having had the matter before them, passed resolutions strongly cadorsing the project, with the single change of recommending 14 feet depth of water in the canal, instead of 12, as first pro They also appointed Chimles Walker, Grouge Stere and Col. B S. SHEPARD, as Provisional Trustees to confer with the citizens of Canada and the different Lake ports, and to take such steps as they may may deem expedient fo the prosecution and completion of this important enter prize. We think that it would be well for our fillwaukee. Board of Trade to adopt a similar course and lend an en-coaraging word, as well as a helping hand to this feasible and valuable improvement.

BOLD THEFT.-A fat cow belonging to a Mr. stolen from his barn and driven to the Market Square and sold restordsy about noon to a butcher. The cor was slaughtered and the meat exposed for sale befor night. The butcher, it seems, paid a fair price for the animal, supposing it was the owner of whom he purchased it. The man who stole the cow had on the day previous driven the cow to the scales by the Market House to have her weighed to decide a bet, and while there was offered \$40 for her. Early yesterday morning he again drove her there, but found no purchaser. At moon he was more successful. Information was not given to the Police an-til last night. In the mean time the their had escaped in the afternoon train.
